

### Technical summary

Your team shall communicate a summary of your project by filling the [WP form](#) before **January 7<sup>th</sup>**

**, 2019**

. This document will allow the Partners to check if your work matches the subject. Each team will receive an assessment before the end of January 2019.

- This electronic document shall be sent by email to the Organization Committee;
- It must be a **PDF file which does not exceed 1 Mo.**

### Deliverable items

#### 1 – Final report

A report explaining your work shall be delivered in English:

- It shall be sent to the Organisation Committee by email before **May 3<sup>rd</sup>, 2019,**
- It must be a **PDF file which does not exceed 5 Mo.**

#### 2 – Poster

In order to summarize your work, you will write a poster, in English, according to the template which will be given later.

- It shall be sent to the Organisation Committee by email before **May 3<sup>rd</sup>, 2019,**
- It must be a **PDF file which does not exceed 2Mo.**

An exhibition of all posters will take place during the next Suborbital Day on **June 6<sup>th</sup>, 2019** at Air and Space Museum at Le Bourget. The best one will be rewarded.

### 3 – Work summary

We ask each team to send a summary in local language (recto) and in English (verso) (for Universities from United Kingdom, summary in French (recto) and English (verso)), according to the [defined template](#) .

- The digital file (**Word document, 2 Mo maxi**) and a school logo must be sent **before May 17<sup>th</sup>, 2019**.

illustrations can be added in the columns (recommended); recto and verso could contain different pictures. Those summaries will constitute the collection of the students' work for the tenth edition of the Challenge. This document will be given to the participants during the Suborbital day and will be uploaded on the Student Aerospace Challenge's website (see ["2017-2018 booklet"](#)

). It will allow the current and future teams to know the approached topics and the proposed innovations. This collection will also be used as a mean to promote the Student Aerospace Challenge.

### Presentation for the Suborbital Day

The Suborbital Day is similar to a congress; each team has a 15 to 20 minute-slot (time for questions included) to present its work. Attendance of at least one team member is mandatory (transport fees for students living out of Paris suburb will be refunded according to written proof and a maximum price defined relative to the trip. The amounts will be given later).

The presentation slides will be in English and the Students would have to talk in English. Be careful not to penalize you in time and understanding. The best presentation will be rewarded.

- You must send your presentation to the Jury by email before **May 29<sup>th</sup>, 2019**,
- It must be a **PowerPoint file which does not exceed 7 Mo** (We are unable to install specific software on the computer used during the Suborbital Day).

Digital file's rules

Not complying with instructions related to max weight and format of the files will lead to a decreased mark.

**Updates after the limit date stated above won't be taken into account.**

Digital and postal addresses

Those addresses will be communicated after the registration.
